PRODUCT MODIFICATION ANNOUNCEMENT

Due to an assembly change to Canlet®'s Vapor Proof fixture, please be advised that a double tube compact fluorescent (CF) lamp no longer fits in our 18 Watt and 26 Watt fluorescent fixtures.

The recommended lamps for the 18 Watt and 26 Watt fixtures would be a triple tube compact fluorescent (CF) lamp, with either a G or GX24Q-3 lamp base, with an overall length of no more than 5 inches.

Following are recommended Osram Sylvania's triple tube lamps:

18 Watt: **Part Number** **CF18DT/E/827** (or equivalent)

26 Watt: **Part Number** **CF26DT/E/827** (or equivalent)
