DIMENSIONS

Junction Box

360 Rotation
Our locking adjustment mechanism allows for flexible adjustment without tools. It is simple to use and will never droop, strip or seize up over time!

INSTALLATION

Both the single hole and three hole covers fit on all 4" weatherproof boxes, recessed 4" octagonal boxes and matching Canlet weatherproof boxes. Screw caps are provided to plug unused mounting holes. The matching weatherproof box has five 1/2" threaded hubs and four plugs. The rear hub is a knockout. The box's mounting feet are spaced 5". Each fixture comes with installation aiming instructions.
